

Laser Dentistry & Culinary Tour of the Italian Riviera

May 1-6, 2011

Join a top leader in dental continuing education and a James Beard-nominated cookbook author for an exclusive dentists' culinary tour of the Italian Riviera...

This week-long tour will offer dentists and their partners a unique opportunity to further their dental education and learn **advanced laser subjects** while vacationing in one of Italy's most breathtaking regions and cooking alongside master chefs.

Designed with the busy (but gourmet) dentist in mind, this tour is open to a maximum of 24 participants, allowing for intimate learning sessions with Dr. Convisar and relaxing group activities both in and out of the kitchen.

Dr. Robert Convisar, named one of the "Top 100 Leaders in Dental Continuing Education" for the past 6 years by *Dentistry Today Magazine*, coauthor of 4 laser dentistry textbooks, and a pioneer in the field of laser dentistry, will lecture for 12 hours during our culinary tour of the Italian Riviera.

The rest of the week will be spent savoring the fabulous foods and wines of this glorious Northern Italian region with New York City-based cooking teacher and **James Beard-nominated** cookbook author **Micol Negrin**, founder of Rustico Cooking. You'll enjoy hands-on cooking lessons, wine tastings, gelato classes, and sightseeing in **Portofino, Cinque Terre, Camogli**, and other seaside towns...

If you ever wanted to discover the hidden beauties and the unique culinary specialties of the Italian Riviera, and learn all you ever needed to know about laser dentistry, this is the trip for you. During laser lectures, non-dentist partners will be further exploring the secrets of Italian cuisine and honing their culinary skills.
