Note—this hotel is a bit more pricy but comes with great recommendation
In 1873, the Grand Hotel Timeo, Taormina's first hotel, is born and a myth begins... Today, after expert restoration which has wisely conserved its elegant style whilst at the same time introducing the latest technology, it has become one of the most resplendent properties of the Italian hotel industry.

Palazza San Domenico Cost €261/night dble

While at the Palazzo San Domenico, take a walk through the ecclesiastical-looking hallways, chapels and courtyards late at night, when things are eerily empty and quiet, and when torches flicker exotically in the gardens. **That's when the resident ghosts are said to make their appearances.** It's the most mystical and otherworldly experience available in any hotel in Sicily!

**See you in
Italy!!**

Browse through the wealth of goods on sale in the refined Taormina shops, walk along the Corso Umber and be mesmerized by the magic atmosphere of the historical center or have breakfast on the splendid roof terrace, enjoying the incomparable panorama of the ancient Greek Theatre with the Naxos Bay on the horizon.
