

The Newsletter of the International Academy for Dental-Facial Esthetics

OCTOBER 2005

Volume 6, Issue 2

The Academy for Dental-Facial Esthetics is an honorary service organization whose mission is to foster interdisciplinary education in the area of facial esthetics. The ADFE includes among its membership many outstanding individuals of the various associated professions who have a desire to create new bridges whereby the esthetic patient can be better and more knowledgeably served. Fellowship in the Academy is by invitation to those dentists, physicians, and members of the cosmetic industry who have distinguished themselves in their respective professions.

2004 WAS GREAT; 2005 PROMISES TO BE EVEN BETTER !!

This is an exciting time of growth for our Academy. Last year, the Academy for Dental-Facial Esthetics welcomed more than 50 new talented and successful Fellows! Now in our 9th year, the ADFE boasts more than 400 distinguished Fellows drawn from the various health related professions.

We are reminding all current ADFE Fellows that it is YOUR opportunity to nominate other allied professionals who you know to be successful practitioners in, or contributors to, the esthetic field (dental, plastic surgeon, dermatology, laboratory).

CONGRATULATIONS!

TAORMINA, SICILY, ITALY
ADFE Spring Meeting
March 31—April 1, 2006

As soon as you arrive in Taormina, you will feel the magical, mythical atmosphere which has enchanted visitors from all over the world for thousands of years. Nestled on the hillside of the Monte Tauro, **Taormina** dominates two grand, sweeping bays below. On its southern side, the peak of Mount Etna dominates the scene. Europe's highest active volcano, it is often capped with snow, offering visitors a breathtaking, dramatic and memorable view of one hundred miles of the Mediterranean coastline.
